

## Did You Know?

**\*It takes 1.5 gallons of ethanol (E-85) to drive as many miles as one gallon of gasoline.**

## Did You Know?

**\*Ethanol is listed as a known human carcinogen by the International Agency for Research on Cancer.**

**\*Ethanol dissolves oxide scale from the walls of pipes and tanks, subjecting the systems to internal corrosion, which leads to leaks.**

## Did You Know?

**\*Ethanol can be diluted with water by 90% and still be flammable.**

## Do You Want to Know More....

about the proposed ethanol plant in San Pierre and its potential effects on the environment and our health?
